

# LT700H RTK ANDROID TABLET | SALES FACT SHEET

## Product Tagline

The LT700H RTK Tablet is designed to increase efficiency and productivity of mobile field workforce in different industries and applications requiring centimeter to decimeter positioning accuracy. Portable, rugged and versatile, the LT700H enables precision GIS data collection, forensic mapping, construction layout, environmental surveys, landscaping and earthmoving... Its 8-inch sunlight-viewable screen perfectly displays any GIS data tables, vector and raster maps or high-resolution pictures.

## Solution Description

Combined with Landstar 7, or any Android Apps such as TopoXpress or Collector for ArcGIS, the LT700H RTK tablet is the cost effective high-precision GNSS solution targeting our traditional survey resellers and GIS & Mapping software companies with their VAR (value added resellers) partners.
