

LandStar8: Adding Filtered Points to the Stake List

Date: 8.20.2024

It is possible to Filter points from the main Point list, into the Points to stake list by Name, Code or Description.

From the Project tab:

Click on **Points**

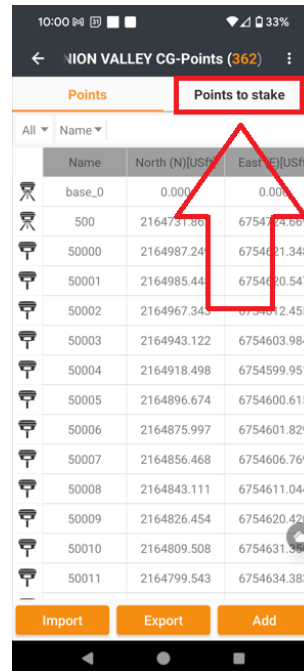

In this project, there are many points with the Code 'RDEP POC' and we want to add them all to the

Points to stake list:

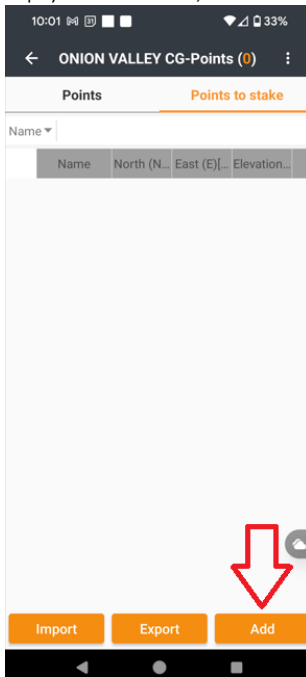

1

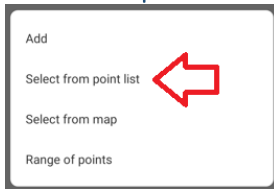

Select the **Points to stake** list tab:

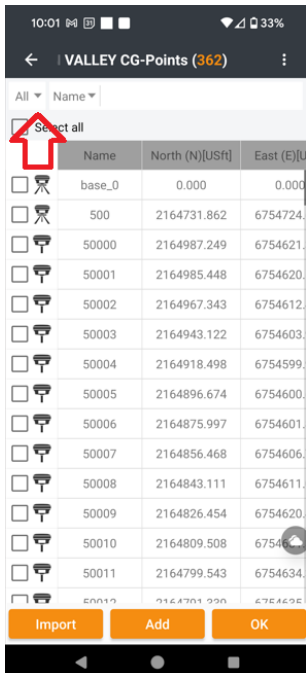

An empty list is shown, click the **Add** button:

Click **Select from point list**:

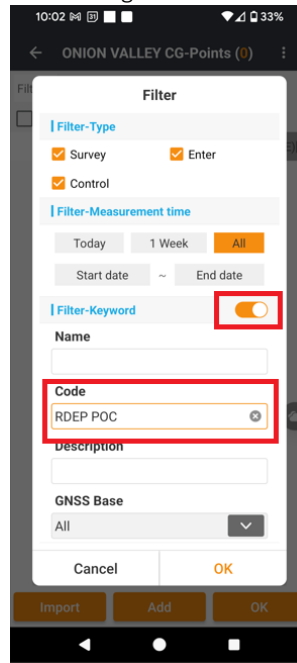

The Point list is shown with checkboxes:

Click the **All** filter button on the top left corner.

The Filter dialog is shown:

Enable the **Filter-Keyword** slider, then enter the **Code** match 'RDEP POC', then click **OK**.

Only the matching points are listed now:

Check the **Select all** checkbox, then click **OK**.

These matching points are now listed in the Points to stake list:

Points		Points to stake		
Name	North (N)	East (E)	Elevation	Code
30109	2164773...	6754656...	9179.398	RDEP POC
30108	2164766...	6754646...	9180.576	RDEP POC
30107	2164756...	6754641...	9181.876	RDEP POC
30106	2164743...	6754640...	9183.219	RDEP POC
30101	2164702...	6754702...	9185.072	RDEP POC
30100	2164702...	6754715...	9184.026	RDEP POC
30099	2164708...	6754728...	9182.612	RDEP POC
30098	2164719...	6754734...	9181.228	RDEP POC
30097	2164732...	6754734...	9180.391	RDEP POC
30096	2164741...	6754728...	9179.909	RDEP POC
30053	2164882...	6754620...	9177.103	RDEP POC
30052	2164862...	6754623...	9177.364	RDEP POC
30051	2164843...	6754631...	9177.712	RDEP POC
30050	2164829...	6754638...	9177.776	RDEP POC
