

# Operation Guide

M3D | May 2026

## 1. Upgrade Procedure

Check for updates: When a new version is available you will be notified at “About”.

New users can download the latest version from:

<https://chcnavigation.jianguoyun.com/p/DV1IMOUQ4vqeDBjEp6AGIAA>

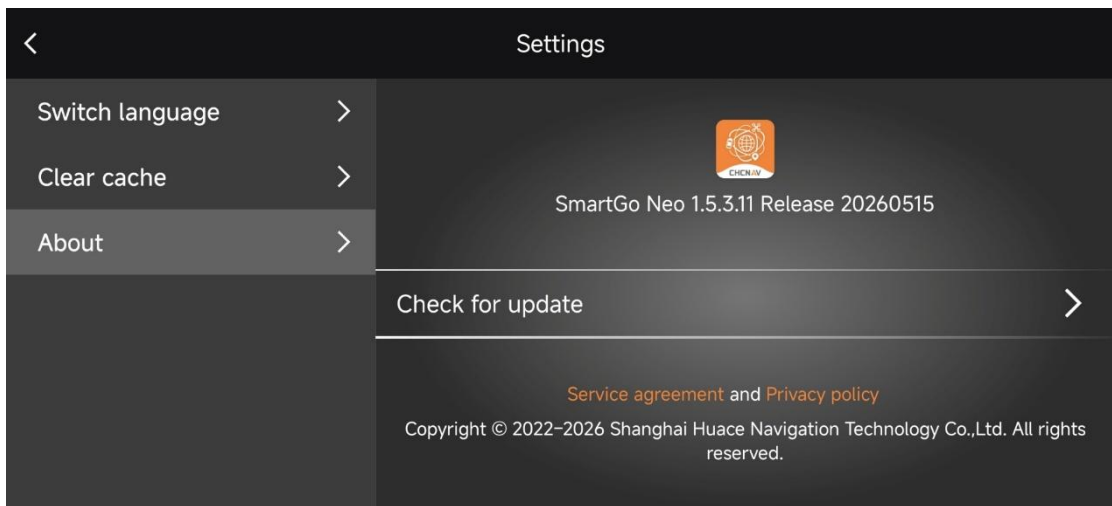

## 2. Update Notes

### Slam\_RS7:

1. SmartGo has been renamed SmartGo Neo and launched on the Google Play Store;

### Description:

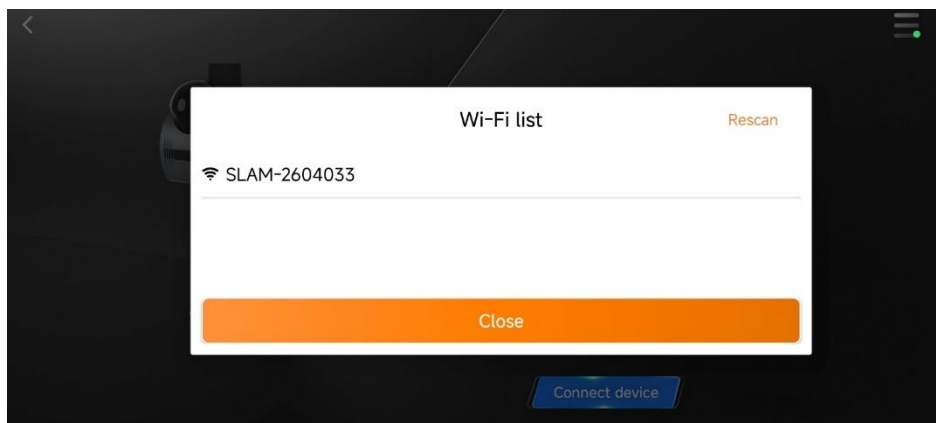

- 1) The SmartGo Neo is only used for RS7, and now it is available on the Google Play Store.

2. Added quick connection function:

### Description:

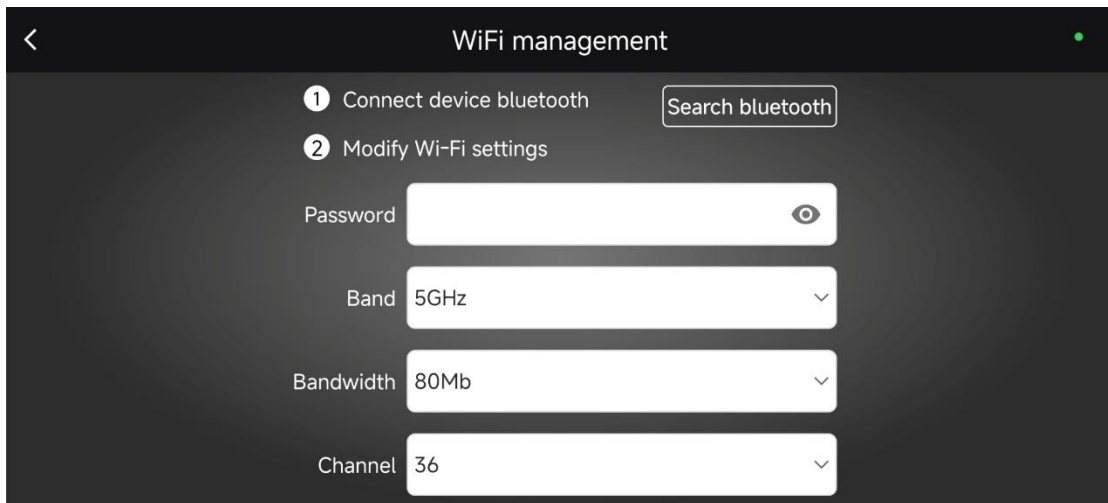

- 2) Bypass the system pop-up and connect directly to the phone's Wi-Fi, ensuring that the phone can access the Internet while connected to device's Wi-Fi. It is currently compatible with most brands of mobile phones, including: Xiaomi, Samsung, Vivo, Oppo, etc., but not OnePlus phones.

3. Wi-Fi management functionality has been added;

**Description:**

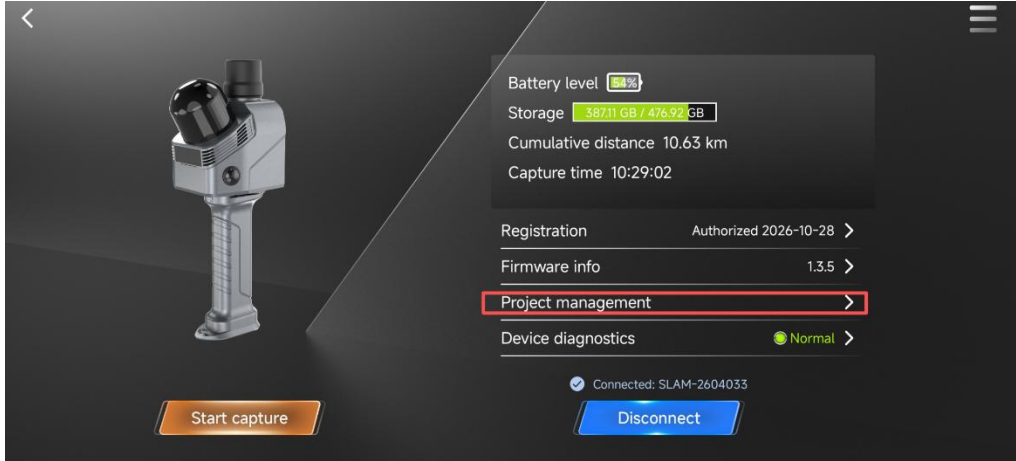

- 3) Supports modifying Wi-Fi password, frequency band, bandwidth, channel, and restoring Wi-Fi to factory settings; if Wi-Fi is connected to by others, the Wi-Fi password can be changed; if the Wi-Fi signal is interfered, the channel can be changed.

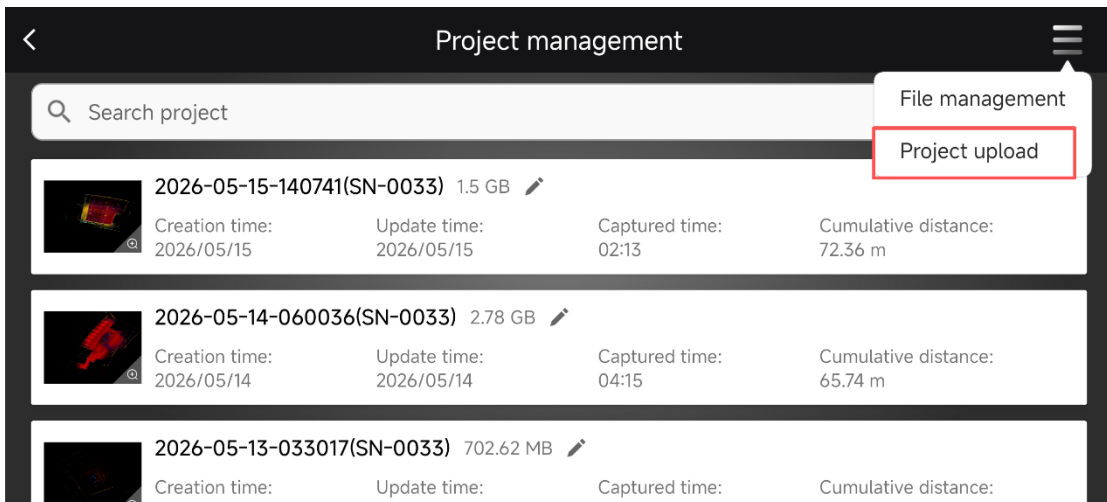

## 4. Supports uploading data to Cocloud via Wi-Fi;

### Steps:

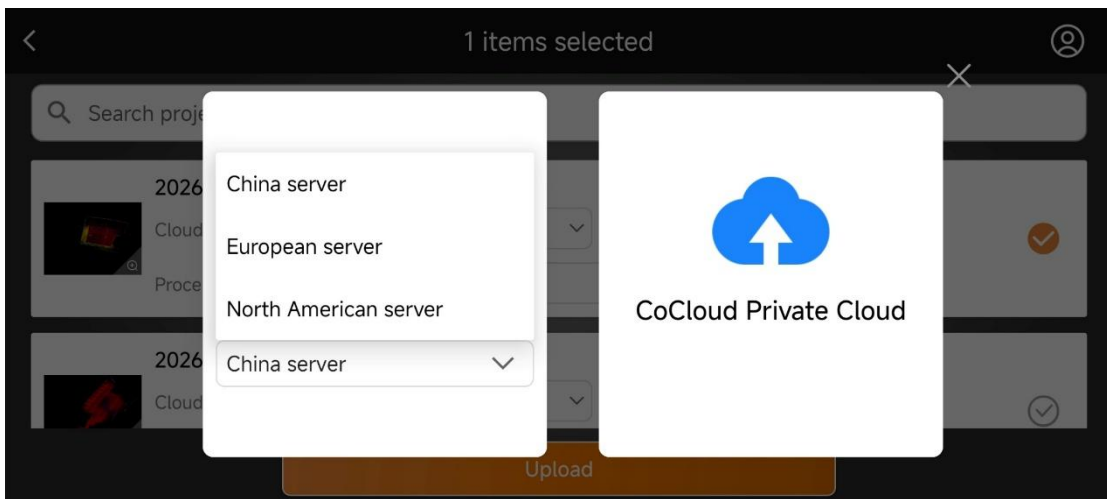

1. Click “Project Management” on the main interface.

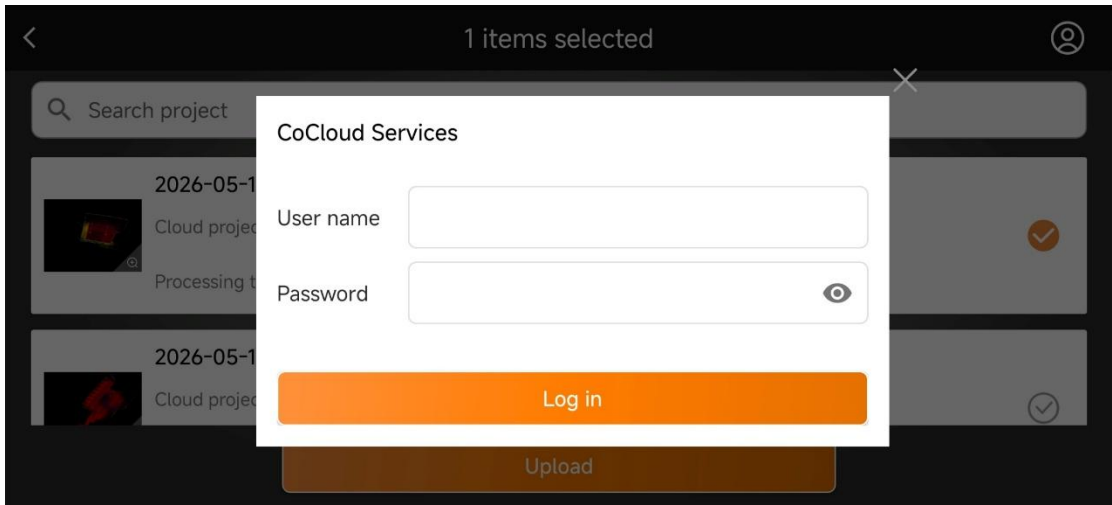

2. Click “Project Upload” in the upper right.

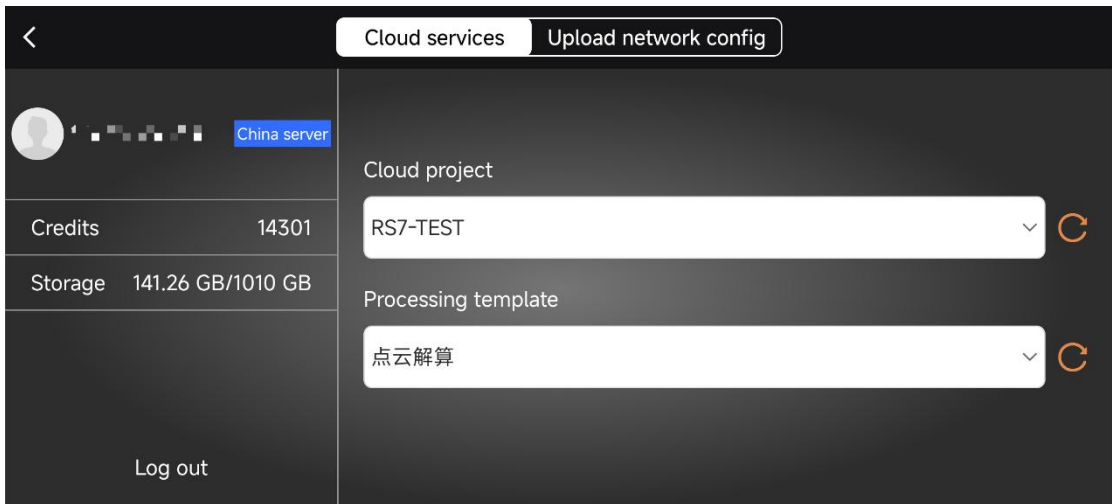

3. It supports uploading to public cloud or private cloud.

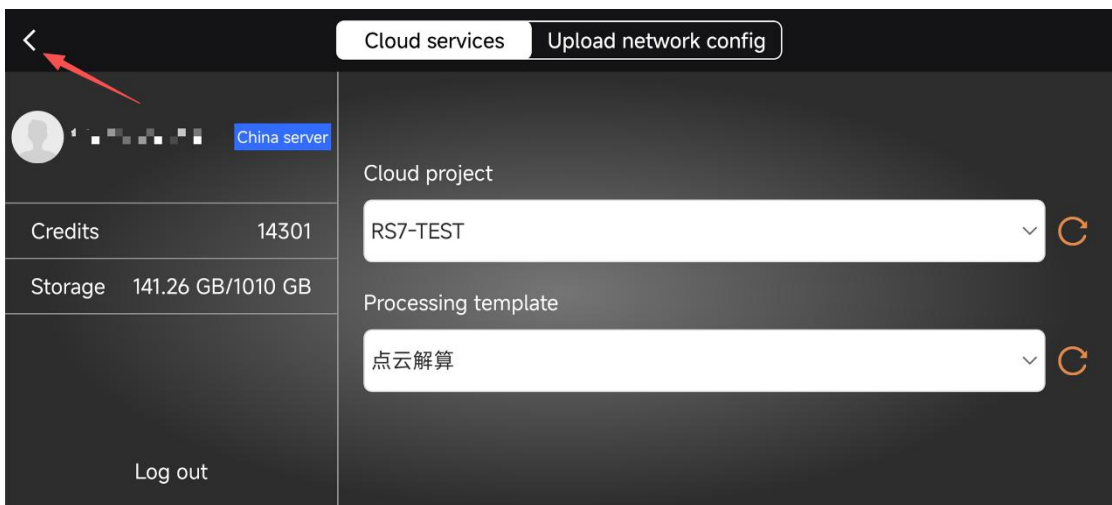

4. Input your Cocloud account and password to upload.

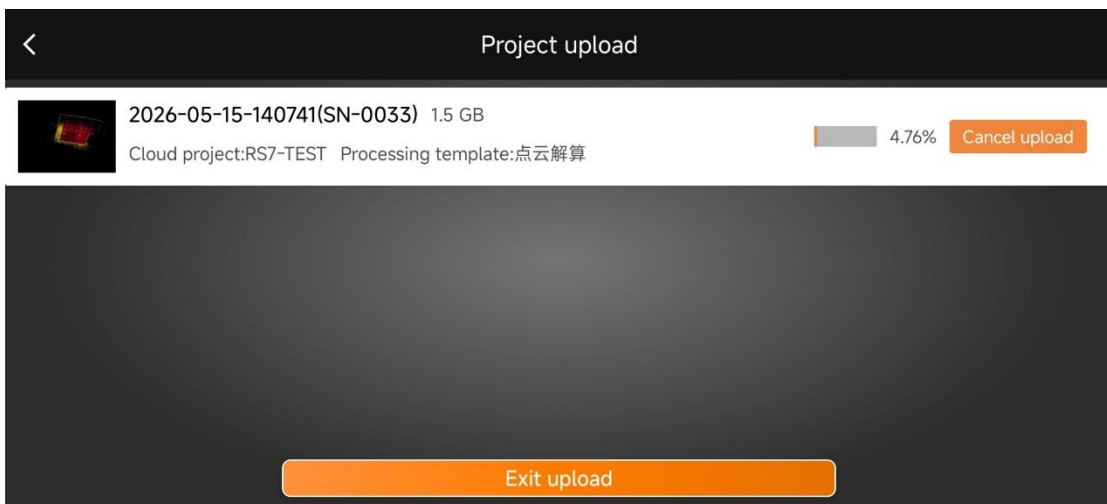

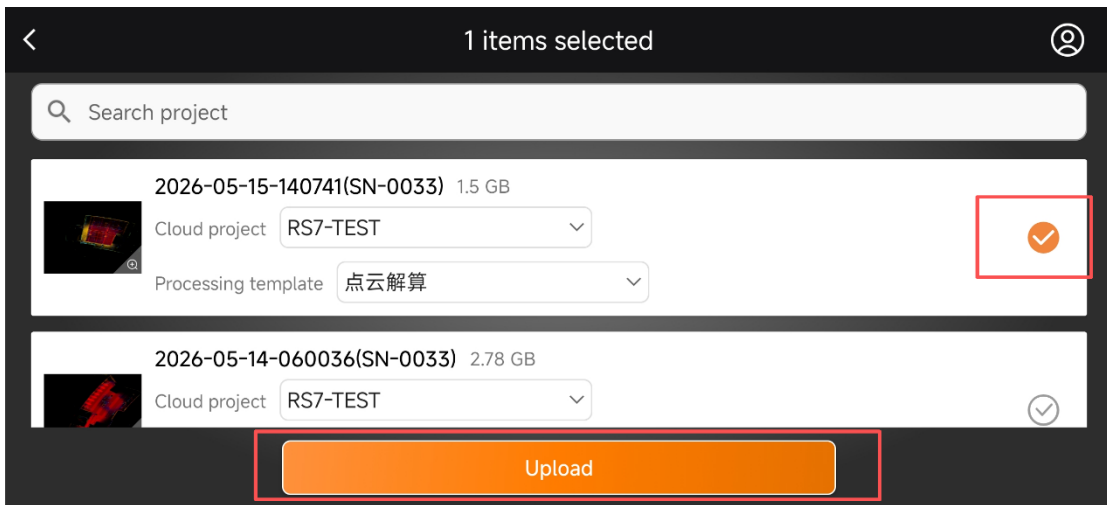

5. Select the processing mode.

6. Click "Back" in the upper left.

7. Select the project to upload.

5. The way the privacy agreement is displayed has been adjusted;

**Description:**

- 5) Adjusted the way privacy agreement prompts are displayed and removed the option to log in to the software with a mobile phone number.

**Required Firmware:**

The RS7 firmware needs to be upgraded to V1.3.5 to apply the new features mentioned above.

The RS7 firmware update are as follows:
